Hello hope all is doing well❤️

Lately the cases of Corona virus are escalating in Lebanon/my society.

I know it's risky but as I said before I can't sit and watch careless people affecting my society or my family.

So, as a scout leader we are distributing flyers about coronavirus, precautions, how to stay safe...

Raising awareness is a must

Stay safe everyone❤️

Hello everyone, ❤️

Due to Corona virus I'm still surviving in my home 😬 I hate routine I want to go out, see people, hug them... Gosh it's been a decade. But I understood the meaning of nature and the music it gives each and every morning (birds singing, the symphony of wind, dancing branches...)

I didn't realize it before in this way because as any other human being I was rushed to my school busy with life without knowing the treasures that surround me.

So yeah nature, music and books are my best friends lately 😊 they give inner peace in a way or another it's like escaping from reality.

Hello everyone, ❤️

Due to Corona virus I'm still surviving in my home 😬 I hate routine I want to go out, see people, hug them... Gosh it's been a decade. But I understood the meaning of nature and the music it gives each and every morning (birds singing, the symphony of wind, dancing branches...)

Hello everyone - hope all is doing well❤️

Today we went to school it's our first day for most of the public schools.

The school took some instructions that we should follow:

- Always wear your mask

- 2 m away from classmates, teacher, any human being...

- Sanitizers are as important as books

- We should not share our stationary

- Each student has his own table and chair

- Our schedule includes 4 hours rather than 7

- Each class is divided into two groups

- If group A is in school the other group will be studying online and vice-versa

It's risky and dangerous but they are trying to make it easier.

Ps: this is my school look 🙂 she's not me 😂 I took this picture for my best friend but I'll share it with you

Now this is called process 🤭 What do think?

Ps: at the beginning of quarantine I made cake but I'm not sure if I can say this because it was like a black wheel in a plate so yeah🎂😂
